

Grid of 50 rows and 30 columns of circles for marking answers.

The image displays a large, rectangular grid of small, empty circles. The grid is composed of 20 rows and 30 columns, totaling 600 circles. The circles are arranged in a uniform, repeating pattern. The grid is enclosed by thick black lines on the top, bottom, left, and right sides, creating a frame around the circles. The circles themselves are small and light gray, with thin black outlines. The overall appearance is that of a dot grid paper or a template for a data visualization.
