

Ballot grid with 100 rows and 100 columns of bubbles for voting.

The image displays a 100x100 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are distributed across the grid in a pattern that resembles a sparse, irregular lattice or a random distribution. The grid is bounded by thick black lines on the top, bottom, left, and right sides.

Ballot grid with 100 rows and 40 columns of circles. Each circle is either filled (black) or empty (white). The pattern of filled circles varies across the rows, representing a specific ballot configuration.
