

Ballot grid with 40 rows of 20 circles each. Each circle contains a number from 1 to 10. The numbers are arranged in a repeating pattern across the rows.

Ballot grid with 50 rows of 20 circles each. Each circle contains a number from 1 to 20, representing a candidate or option. The circles are arranged in a grid, with each row representing a different ballot item. The numbers are distributed across the grid, with some numbers appearing multiple times in different rows.

Ballot grid with 50 rows and 40 columns of bubbles for marking selections.

Ballot grid with 50 rows of 20 circles each. Each circle is either filled (black) or empty (white). The pattern of filled circles is as follows:

Row	Circle 1	Circle 2	Circle 3	Circle 4	Circle 5	Circle 6	Circle 7	Circle 8	Circle 9	Circle 10	Circle 11	Circle 12	Circle 13	Circle 14	Circle 15	Circle 16	Circle 17	Circle 18	Circle 19	Circle 20

Ballot grid with 40 rows of 20 circles each. Each circle contains a number from 1 to 40, representing a candidate or issue. The numbers are arranged in a repeating pattern across the rows.

A 100x100 grid of circles. The grid is composed of 100 rows and 100 columns. Each circle is outlined in black. Some circles are filled with black, while others are empty. The filled circles are distributed across the grid, with a higher concentration in the upper-left and lower-right quadrants. The pattern of filled circles is not random, suggesting a specific data set or algorithm used to generate it.

Ballot grid with 50 rows and 40 columns of bubbles for marking selections.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of filled and empty bubbles representing a ballot.

The image displays a 40x20 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are scattered across the grid, with a higher concentration in the first 10 columns. The grid is framed by a thick black border.
