

Total Voters Checked In	Total Included Receipts
0	10

The following backup voter checklist is marked to reflect voter check-ins, new registrations, and registration changes up until the time that the checklist was exported. The table on this page lists all poll books used in the election and, for each, the count of receipts that are already reflected in the checklist. Ensure that the checklist is manually updated for any receipt with a number higher than its poll book's receipt count.
