

Ballot grid with 50 rows and 30 columns of bubbles for marking selections.

Ballot grid with 50 rows and 30 columns of bubbles for voting.

The image displays a 50x20 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are distributed across the grid, with some appearing in vertical columns and others scattered. The grid is bounded by thick black lines on the top, bottom, left, and right sides.

Ballot grid with 50 rows of 20 circles each. Each circle is either filled (black) or empty (white). The pattern of filled circles is as follows:

Row	Column 1	Column 2	Column 3	Column 4	Column 5	Column 6	Column 7	Column 8	Column 9	Column 10	Column 11	Column 12	Column 13	Column 14	Column 15	Column 16	Column 17	Column 18	Column 19	Column 20

A 50x50 grid of circles with black outlines. Some circles are filled with solid black, while others are white. The black circles are scattered across the grid, with a higher concentration in the center. The grid is framed by a thick black border.

Ballot grid with 40 rows of 20 circles each. Each circle contains a number from 1 to 10. The numbers are arranged in a repeating pattern across the rows.

Ballot grid with 50 rows and 30 columns of circles. Some circles are filled black, representing a completed ballot.

Ballot grid with 50 rows and 30 columns of bubbles for marking selections.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of filled and empty bubbles representing a ballot.

The image displays a 40x20 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are distributed across the grid in a pattern that resembles a sparse, irregular lattice or a random distribution. The grid is bounded by thick black lines on the top, bottom, left, and right sides.
