

Ballot grid with 50 rows of 20 circles each. Each circle contains a number from 1 to 20, representing a candidate or option. The numbers are arranged in a repeating pattern across the rows.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of bubbles, some of which are filled (black) and others are empty (white). The pattern of filled bubbles varies across rows, representing a specific ballot configuration.

The image displays a 100x100 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are distributed across the grid in a pattern that resembles a sparse, irregular distribution, with some clusters and many empty spaces. The grid is bounded by thick black lines on the top, bottom, left, and right sides.

Ballot grid with 50 rows and 100 columns of bubbles for marking selections.

A 50x50 grid of circles with black outlines. Some circles are filled with solid black, while others are white. The black circles are scattered across the grid, with a higher concentration in the center. The grid is bordered by a thick black line on the top, bottom, left, and right sides.

Ballot grid with 40 rows of 20 circles each. Each circle contains a number from 1 to 40, representing a candidate or issue. The numbers are arranged in a repeating pattern across the rows.

Ballot grid with 50 rows and 30 columns of circles. Some circles are filled black, representing a completed ballot.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of filled and empty bubbles representing a ballot.

You have completed voting.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of bubbles, some filled (black) and some empty (white), representing a specific ballot configuration. The bubbles are arranged in a grid pattern, with each row having a unique sequence of filled and empty bubbles.
