

Ballot grid with 100 rows and 100 columns of circles. Each circle contains a number from 1 to 100, representing a unique combination of row and column indices (e.g., 11, 12, ..., 100).

Ballot grid with 100 rows and 20 columns of circles. Each circle contains a number from 1 to 100, representing a vote for a specific candidate or option. The numbers are arranged in a grid pattern, with each row containing 20 numbers and each column containing 100 numbers. The numbers are distributed across the grid in a way that represents a specific voting pattern.

Ballot grid with 100 rows and 20 columns of circles. Each row contains a series of circles, some of which are filled black, representing a completed ballot. The circles are arranged in a grid pattern, with each row having 20 circles. The filled circles are distributed across the grid, indicating the voter's selections for each row.

Ballot grid with 100 rows and 100 columns of circles. Each circle contains a number from 1 to 100, representing a unique combination of row and column indices (e.g., 11, 12, ..., 100).

Ballot grid with 100 rows and 100 columns of circles. Each row contains 100 circles, with some circles filled black and others empty. The pattern of filled circles varies across rows, representing a specific ballot configuration.

Ballot grid with 100 rows and 20 columns of circles. Each row contains a sequence of filled and empty circles representing a vote. The pattern of filled circles is as follows:

Row	Column 1	Column 2	Column 3	Column 4	Column 5	Column 6	Column 7	Column 8	Column 9	Column 10	Column 11	Column 12	Column 13	Column 14	Column 15	Column 16	Column 17	Column 18	Column 19	Column 20

Ballot grid with 100 rows and 100 columns of circles. Each circle contains a number from 1 to 100, representing a unique combination of row and column indices. The circles are arranged in a grid, with the first row starting at (1,1) and the last row ending at (100,100). The numbers are printed in a small, black, sans-serif font, centered within each circle. The grid is used for marking a ballot, where the number indicates the specific row and column for a vote.

Ballot grid with 100 rows and 100 columns of bubbles. Each row contains 100 bubbles, with some bubbles filled (black) and others empty (white). The filled bubbles are distributed across the grid, representing a completed ballot.

Ballot grid with 100 rows and 100 columns of circles. Each circle contains a number from 1 to 100, representing a unique combination of row and column indices (e.g., 11, 12, ..., 100).
