

Ballot grid with 50 rows and 25 columns of bubbles. Each row contains 25 bubbles, with some bubbles filled (black) and others empty (white). The bubbles are arranged in a grid pattern, with some bubbles filled and others empty, representing a ballot.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a sequence of bubbles, some of which are filled (black) and others are empty (white). The pattern of filled bubbles varies across rows, representing a specific ballot configuration.

Ballot grid with 50 rows of 25 circles each. Each circle contains a number from 1 to 25, representing a candidate or option. The numbers are arranged in a repeating pattern across the rows.

Ballot grid with 50 rows and 100 columns of bubbles for marking selections.

The image displays a 40x20 grid of circles. Each circle has a black outline. Some circles are filled with solid black, while others are empty. The black circles are distributed across the grid in a pattern that resembles a sparse, irregular lattice or a random distribution. The grid is bounded by thick black lines on the top, bottom, left, and right sides.

Ballot grid with 50 rows and 30 columns of bubbles. Each row contains a series of bubbles, some of which are filled (black) and others are empty (white). The bubbles are arranged in a grid pattern, with each row having a unique sequence of filled and empty bubbles.
